Strategic Product Manager

+91-9038066701 • saurabh_shrivastava_pcpm08@execed.isb.edu • linkedin.com/in/connectwithsaurabh • Bangalore, India

Summary

Strategic Product Manager | AI-Powered SaaS & Omnichannel Communications | GTM & Monetization Results-driven Product Manager with 4+ years of dedicated product leadership building AI-powered B2B/B2B2C SaaS platforms, backed by 8+ years of cross-functional experience driving growth, sales, and operations. Proven expertise in owning flagship products, defining pricing models, and executing Go-To-Market (GTM) strategies. Adept at leveraging Generative AI, machine learning, and omnichannel communication architectures to drive millions in incremental revenue, optimize dealership workflows, and elevate end-user digital retailing experiences

Key Achievements

 Revenue & Monetization Generated \$2M revenue and reached 20.1% SKU adoption via ML pricing.	 AI Automation Impact Reduced lead response time 62% and increased bookings by 18.6%.	 Platform Adoption Growth Increased platform adoption by 25.4% and reduced tickets 38.1%.
 Process Optimization Reduced check-in times by 63.2% and saved ~\$12K per client annually.	 Omnichannel Expansion Boosted interactions 27.2% and conversions 30.3% via suite launch.	 ML Upsell Rate Increase Boosted upsell attach rates by 19% via ML recommendation engine rollout.

Experience

Solera Holdings, LLC

Product Manager (Product Owner)

Bangalore, India

07/2025 - Present

Automotive CRM and digital retailing platform (Dealerfire) serving 4,000+ dealerships

- **Led 0-to-1 omnichannel CRM launch (text, WhatsApp, web video)**, increasing interactions 27.2% and mobile conversions 30.3%.
- **Directed AI-driven calling, LLM-powered Smart Compose and automated workflows**; cut lead response from 12.5 to 4.8 minutes, boosted BDC bookings 18.6%.
- **Launched dynamic dealer website tool and real-time inventory integrations**; reduced onboarding and deployment time 35%, synced 100K+ listings daily.
- **Defined SKUs, pricing and GTM strategy**; generated \$2M incremental revenue and achieved 20.1% adoption of paid SKUs.
- **Increased appointment confirmations** by 25.1% using AI-curated embedded videos; implemented Pendo analytics and Salesforce enablement for sales.
- **Achieved 100% GDPR/CCPA compliance readiness**; led API-first modular platformization with Postman, REST APIs, and TestRail QA tracking.
- **Agile Leadership & Cross-Functional Alignment**: Orchestrated collaboration across business, compliance, technical, and design teams to drive end-to-end product delivery. Streamlined agile ceremonies and backlog prioritization, accelerating feature time-to-market by 15% and bridging the gap between technical capabilities and commercial strategy.

Tekion Corp

Associate Product Manager

Bangalore, India

07/2022 - 06/2025

Core Ownership: B2B2C After-Sales Consumer Portal, ML Recommendation Engine, Document Manager

- **B2B2C Consumer Portal Revamp**: Redesigned the end-to-end after-sales consumer portal, utilizing Figma for UI prototyping and Miro for mapping digital-first customer journeys. Increased platform adoption by 25.4% and reduced incoming support tickets by 38.1%.
- **ML-Powered Recommendation Engine**: Architected and launched a collaborative-filtering recommendation engine to personalize service suggestions, analyzing datasets with SQL and integrating pipelines via Stitch. Successfully drove a 19% increase in upsell attach rates for dealership service centers.
- **Digital Configurator & Document Manager**: Created a robust document configurator featuring AI-assisted PDF generation and integrated e-signature workflows, accelerating development utilizing GitHub Copilot. Cut customer service check-in times by 63.2%, reduced manual processing by 40%, and generated ~\$12K in annual cost savings per dealership.
- **Data-Driven Product Iteration**: Delivered 20+ feature enhancements using A/B testing and Voice of Customer (VOC) insights measured through Google Analytics. Prototyped rapid solutions and reviewed logic structures directly in VS Code.
- **Product Discovery & Beta Programs**: Created an enterprise advisory group to drive a VOC feedback loop, translating user interviews directly into validated product requirements.

Previous Experience

Key Account Manager / Operations Manager / Business Development

India

12/2015 - 06/2022

(Zepo, NoBroker, Aashir's Lifestyle, Integri Marine, BYJU'S, Sandigan Ship Management)

- Built foundational skills in client relationship management, operations, and business strategy across B2B sales, account management, and operations roles before transitioning into product management
- Successfully expanded vendor pools, drove revenue growth (scaled revenue by a factor of 15X at Aashir's Lifestyle), managed e-commerce onboardings, and optimized logistics and customer satisfaction
